

Headset Recommendations

for CISCO VoIP phones

Appalachian State University

KEY FEATURES

- The EncorePro **HW510** and **HW520** headsets are designed for a simple wired connection to the CISCO phone base. Both of these headsets offer hands free use and have a quick disconnect feature that disconnect your headset from the phone base if you need to step away from your desk.
- The EncorePro **HW510D** and **HW520D** are designed to connect directly to a computer via USB. These headsets are for use **ONLY** with the CISCO Jabber Client and/or the CISCO IP Communicator, available in phase II of the VoIP project. These specialty models will not connect directly to a CISCO phone.

**HW510
and
