

H5P in Moodle Core

HTML5, also known as H5P, allows you to create interactive content within your AsULearn course. Interactive content ranges from simple activities like multiple choice questions and flash cards, to interactive videos, presentations and books. H5P content can bring a level of engagement with your course material that can otherwise be difficult to achieve.

For more information on H5P, visit these sites.

- [H5P Examples and Downloads](#)
- [H5P and Accessibility](#)

NOTE: Due to how H5P behaves in Moodle/AsULearn, the activities allow for unlimited attempts by students. You should **not** use H5P for major assignments such as exams.

Below is a list of commonly used H5P items.

Gradable items:

*Many H5P activities are gradable. Please note, that gradability is dependent on whether gradable activities are present within the activity.

- Branching scenario*
- Course Presentation*
- Drag and Drop
- Drag the Words
- Fill in the Blanks
- Find the hotspot(s)
- Flashcards
- Interactive Book*
- Interactive Video*
- Mark the Words
- Multiple Choice Set
- Speak the Words (set)
- Summary
- True/False Question
- Virtual Tour

Not gradable:

- Accordion
- Agamotto
- Audio
- Dialog Cards
- Image Hotspot
- Image Hotspots
- Image Slider
- Timeline
