

Courses Not Visible

If you don't see all of your courses when you first log into AsULearn, don't panic.

Instructors using AsULearn must turn on the course before it is available to students. The first thing to do if you don't see one or more of your courses in AsULearn is to talk with your instructors for any of the missing courses to find out whether they will be using AsULearn and when they will be making the material available to you.

Be aware that not all faculty use AsULearn.

If you verify that your missing AsULearn course is being used by the instructor and that you are officially registered for the course, use the **Submit a Service Request** link below. Specify the courses and sections (i.e. ENG1001-102) that are not available to you.
