How to Map a Drive/uStor folder on Windows Computers

Follow the steps below to map a drive on your Windows computer.

Step-by-step guide

1. Open the uStor icon on your desktop.

2. Find your department drive in the list, (hovering the cursor over each folder will show a description).

3. For Windows 11, right click your folder and select Show more options, then Map network drive...
   For Windows 10, right click on your folder and select Map network drive...

5. Make sure **Reconnect at sign-in** is checked and **Connect using different credentials** is unchecked.

6. Click Finish and you'll be viewing your M drive.

- uStor
- uStor Cloud Network Storage Manager
- Work from Home (Telework) Resources
