Work from Home (Telework) Resources

Supervisors or other designated officials have discretion in deciding whether an employee is a candidate for telework, please refer to your supervisor for guidance on approved work procedures.

Additional teleworking guidance and a form for documenting telework arrangements is available here https://hr.appstate.edu/Employee_Resources_COVID19

Remote Tools for Access to Secure University Services

Information Technology Services has developed connection recommendations to optimize resources so all patrons can have a successful and secure telework experience.

Jabber Client for University Phone Lines

Maintaining reliable and familiar communication channels are critical to business continuity.

**Note:** If you are not able to answer your campus line, all inbound phone calls will go directly to voicemail. **Every** voicemail you receive will automatically be sent to your AppState email with full call details.

- If your department has a business need to answer incoming university calls remotely, you can use Cisco Jabber.

Webinars/Meetings

**ZOOM Video and Web Conferencing**

- Hold meetings for up to 300 participants
- Allows users to join by phone
- Login: https://appstate.zoom.us
- Tutorial: Zoom Web Conferencing: Classes, Group Work, Collaboration

**Google Chat** - From direct messages to group conversations, **Google Chat** makes it easy to communicate with your coworkers.

- Casual group meetings
- Domain Directory invites with video meeting
- Login: chat.google.com
- Create meeting rooms, share and collaborate work
- Tutorial: https://support.google.com/hangoutschat

Video and Lecture Capture

**Screencast-o-matic**

- Screencast-o-matic is a simple and intuitive video recording and editing web-based tool.

Kaltura

- Kaltura is a cloud video platform that provides tools for recording, editing, and sharing videos and is accessible through the MediaSpace website or via AsULearn.
- Tutorials: https://confluence.appstate.edu/x/ZgPqBQ and https://confluence.appstate.edu/x/DYUsBQ

Security

Stay secure while working from home

- Remain skeptical and be aware of fraudulent email and social media posts. Report suspicious emails by forwarding them to phish@appstate.edu.
- While working from home, do not store confidential University data on any personal devices (e.g., files that may contain SSNs, banking info, health records). If you do not have a University device that can be used for work, then the UDesk (virtual desktop platform) can be used for work involving confidential data.
- Please make sure that University computing devices are only accessed by you and not family members or guests.
- All University managed devices will continue to receive security updates and protection whether on- or off-campus.

Additional Resources

- Teaching Continuity - Center for Excellence in Teaching and Learning for Student Success (CETLSS)
- To address challenges and opportunities in managing projects without face-to-face meetings and conversations, see Tips on Making Work Visible and Project Team Meetings.

For additional information or questions, please feel free to contact the Help Desk at 828-262-6266.
