Gmail Articles

Overview

Gmail is Google's email service. Gmail is managed via Google's commercial email servers and can be checked in real-time on the web. Access to Gmail is available to current faculty, staff, students, and retirees with emeritus status. Alumni keep their Google access for a 12-month period following separation from the university. GMail smart features include:

- Integration of Google Chat, Meet, Calendar, and other Google Workspace products
- The ability to create and manage spaces for ongoing and long-term conversations
- Utilization of writing and intelligent search suggestions

Access

To access GMail on the web, navigate to gmail.appstate.edu. Note: If you are logged into a personal Google account in the same browser, you may be redirected to the inbox for that account. See this Help Document to add a second account to your browser session.
To access GMail from a mobile device, download the GMail app from the App Store (iOS devices) or the Play Store (Android devices). Note: App State recommends using the official Google GMail app rather than third-party mail apps such as Apple Mail.

Help

For tailored assistance with GMail, contact the Help Desk at 828-262-6266 (Option 1). For general assistance, visit Google's GMail Support Page.
