Panopto: AsULearn Integration

Panopto is Appalachian's classroom lecture capture tool, chiefly used to record a traditional face-to-face physical class meeting with students. It is integrated with AsULearn, our course management system, and the directions for adding the Panopto block to your course and provisioning it in Panopto are listed below. Here are some Panopto use cases:

- Recording a face-to-face class meeting, using the Panopto recorder on the podium in the classroom to capture the podium’s desktop, and feeds from any attached microphone and webcams. Note that most podiums around campus may not have a microphone attached. You’ll need to bring in a microphone to capture your voice! When integrated with AsULearn, links to the recordings are automatically posted to the Panopto block in your course.
- Some faculty use Panopto as a desktop capture tool—using the Panopto recorder on their personal computer to record their computer screen and/or webcam and audio—to create tutorials for use in online and/or face-to-face courses.
- Some faculty also upload existing video to Panopto to stream it into their AsULearn course site. Concerned about students staying engaged while watching video content? Panopto has the ability to embed quiz questions during the video that display at any time index you choose to help your students focus on learning objectives, and get the most out of your media examples.

Add Panopto to your course

- Shows how to add the Panopto block
- Shows how to add recording to your course (at 2:10)

Step-by-step guide

To add the Panopto block to your course, and provision it with Panopto, follow these steps.

1. From your AsULearn course homepage, click the gear icon (top right) then select Turn editing on

   ![Edit settings]

   ![Turn editing on]

   ![Filters]

   ![Gradebook setup]

2. At the top left of your course page, click the 3-line hamburger icon to open the drawer menu from the left (if it is currently closed)

3. Scroll to the very bottom of the drawer, and click Add a block
4. In the list of blocks that appears, select **Panopto**

5. The Panopto block will appear on the right side of the course page. NOTE: You can move the block up or down by clicking+holding+dragging the cross icon

This course has not yet been provisioned.
Provision Course
6. To provision your course in Panopto, click **Provision Course** in the Panopto block. After the course is provisioned, click **Back to course**. You'll see your connected Panopto block as below. Note that you can download the Panopto recorder (for Win or Mac) to your computer via the link that always shows in the block.

You should now have a working Panopto block. Links to recordings made in that course's folder will automatically appear there for your students.

Contact your CAE **consultant** for further assistance.
