Turnitin Plagiarism Plugin for AsULearn Assignments & Forums

In the recent past, if you wished to use Turnitin in AsULearn, your only option was to use the Turnitin Assignment activity. Now, we have also deployed a new 'Plagiarism Plugin' that allows you to enable Turnitin for a regular AsULearn assignment, and for AsULearn forum posts. If you have group assignments and need Turnitin, this is a real game changer, since the Turnitin assignment type does not support groups, and AsULearn assignments do. It's also a new potential solution if you have originality concerns with forum posts in AsULearn.

Enabling Turnitin on the Assignment and Forum 'Edit Settings' Page

To add Turnitin originality checking to an AsULearn Assignment or Forum, just follow the steps below.

1. Turn Editing on in your course
2. Add either an "Assignment" or a "Forum" activity to your course
3. On the Edit settings page where you create the activity, you will now notice a section of settings called Turnitin plagiarism plugin settings.

   ▶ Feedback types
   ▶ Submission settings
   ▶ Group submission settings
   ▶ Notifications
   ▶ Turnitin plagiarism plugin settings
   ▶ Grade

4. Open this section and set 'Enable Turnitin' to Yes.
5. **A note about students and the Turnitin licensing agreement**: If a student has never made a selection to accept or decline the Turnitin license agreement, they are blocked from posting on a forum or uploading an AsULearn assignment until they make a choice (if you've enabled the Turnitin plugin for the assignment or forum, or course). They can click the EULA link and accept or decline. If they accept, their submission or post goes to Turnitin. If they decline, it only goes to AsULearn, like a regular AsULearn assignment or forum post. After declining, the link STAYS there so they can go back and accept if they change their mind.

6. Watch a recording of a webinar hosted by Greg Simmons & Mary Beth McKee about using the Plugins in AsULearn Assignments and Forums:
