

I can't see my grades in AsULearn.

If the gradebook has been made visible, the **Grades** link will be included in the drawer menu on the left-hand side of your course page.

You can expand and collapse the drawer menu using the **hamburger** icon (top left, next to the AsULearn logo).

The first thing to do if you don't see the gradebook link in your course is to communicate with your instructor to find out whether they will be using the AsULearn gradebook for the course and when they plan to make it available to students.

Activities like an **Assignment** or a **Quiz** may have grades listed in the completed activity itself. You can access this score by clicking on the link inside the course. Below is an example of a score a student might see from a quiz attempt (click the image to enlarge).

grading method: highest grade

Summary of your previous attempts

Attempt	State	Points / 2.00	Grade / 100.00	Review
1	Finished Submitted Wednesday, July 10, 2019, 2:40 PM	2.00	100.00	Review

Highest grade: 100.00 / 100.00.

Again, the instructor will determine what students can access with the settings for the activities.
