

# How to Configure ASU Wireless on macOS

This guide shows you how to connect your University-owned Mac to the AppState secure wireless network called "asu".

**Note:**

This does not pertain to the network called asu-secure.

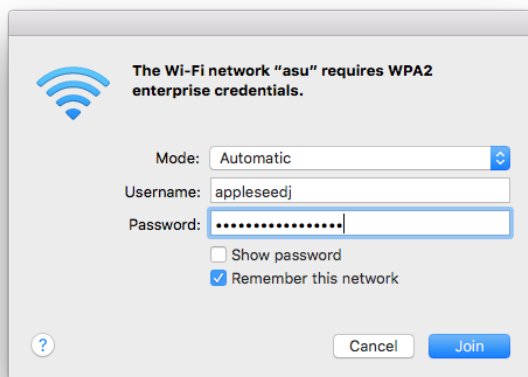

1) Click on the Wi-Fi icon in the top right corner of the menu bar, and click on **asu** from the list of available networks.

**Note:**

If you don't see the Wifi icon, you can find the Wifi Settings in your System Preferences under Network.

2) On the popup window, enter your AppState credentials and then click **Join**. You should now be connected to the AppState secure network.

3) If this is your first time connecting this machine to the asu network, you will need to register. To do this, open a web browser and navigate to [netreg.apstate.edu](http://netreg.apstate.edu).

Netreg2 - Login  
https://netreg2.appstate.edu

## NetReg Network Support Services

Netreg Network Registration System

Welcome to the ASU Network Registration System.  
**Please login as an ASU User or UGuest:**

ASU Login Name:   
Password:

---

**OR Please login as a Visitor to the ASU Network**

Visitor Email Address

Logging in as a guest/visitor user indicates you have read and accepted the [Acceptable Use Policy](#).
