

MountaineerMail (Gmail)

All Faculty, Staff and Students use Google Apps for Education for email as well as calendaring, docs and drive.

Overview

Gmail is Google's electronic webmail service, which AppState has rebranded as **Mountaineer Mail**. **Gmail** does not require the use of complicated email clients as messages are managed via Google's commercial email servers and can be checked in real-time on the web. Access to **Mountaineer Mail** is available to faculty, staff, current students, retirees, and alumni (for a 12-month period following separation from the university).

Access

To access **Mountaineer Mail** on the web, navigate to mail.google.com/a/appstate.edu.

- (Note: If you are logged into a personal **GSuite** account in the same browser, you may be redirected to the inbox for that account. Please see this [Help Document](#) to add a second account to your browser session.)

To access **Mountaineer Mail** from a mobile device, please download the **Gmail** app from the App Store (iOS devices) or the Play Store (Android devices)

- (Note: AppState recommends using the official Google **Gmail** app rather than third-party mail apps such as Apple Mail)

Help

For tailored assistance with Gmail, contact the Help Desk at 828-262-6266 (Option 1)

For general assistance, please view Google's [Gmail Support Page](#)
