

Gradebook

Students appreciate when faculty utilize the gradebook in AsULearn, so they can more easily track their progress in courses. AsULearn activities that receive grades, such as assignments, quizzes or possibly forums, automatically create entries into the Gradebook. Faculty can also add additional manual grade items to include activities that happen outside of AsULearn. Grades can be grouped into categories and faculty can use the setup piece to match their grading scheme to the AsULearn calculation of overall grades.

Faculty can decide when and how students see the gradebook, or choose to hide the gradebook entirely. Please note that the AsULearn gradebook does not send grade information to the Registrar, and faculty will still need to enter official final grades separately.
