

H5P: Creating and Editing H5P Content in AsULearn

i H5P is now part of Moodle/AsULearn Core. As such, all H5P content must be created and stored in the H5P Content Bank located within your AsULearn course.

Step-by-Step Guide

Steps for creating new H5P content and editing existing H5P content in the Content Bank.

1. From the course page, click on the **Turn editing on** button (top right).
2. Navigate to the left-side navigation drawer and scroll down to the "Content Bank" link (Figure 1).

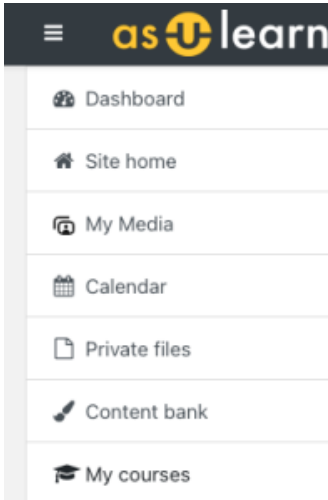

Figure 1: Image of the navigation drawer in AsULearn showing the "Content Bank" link for H5P.

3. Click on the "Content Bank." This will open the Content Bank in a new window.
4. To create a new H5P file, click the "Add" drop down link and select the H5P content format that you want (Figure 2).

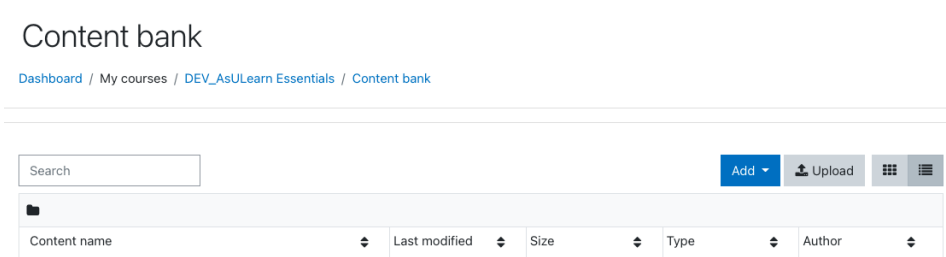

Figure 2: Image of the Content bank window in AsULearn.

5. This will open a new window and you can begin creating your content.
6. If you have existing H5P content in the Content Bank, simply select the file.
7. This will open the file in a new window and you can make any edits or modifications that you would like.
