

Fix ASU Wifi after Password Change on macOS

After you change your password using the Password Manager, your Mac will sometimes have trouble reconnecting to the ASU wireless network. This guide will walk you through how to fix the connection and setup asu wireless again.

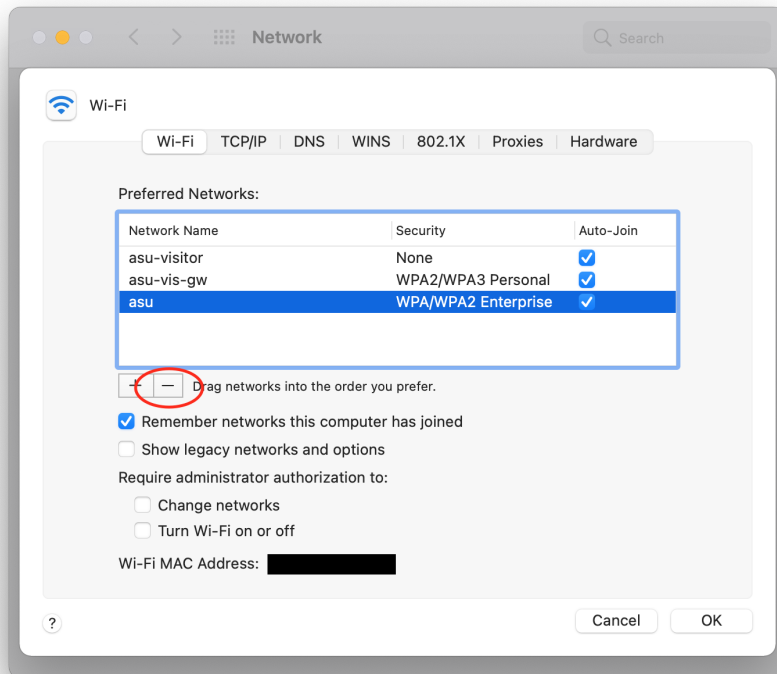

1. Click on the Wi-Fi icon in the top right menu bar and select "**Network Preferences...**"

2. Select Wi-Fi from the left column, then click "**Advanced...**"

3. In the Preferred Networks list, click on asu, then click the minus  button below. Click OK.

4. Click Apply and close the window.
5. Return to the Wi-Fi icon in the top right of the menu bar and select **asu** from the list of networks.
6. Enter your AppState credentials and click **Join**. You should now be successfully reconnected to the asu wireless network.
