

Course: View as Specific Student will see it

A user with the Teacher role can log in as a specific student to see the course as that student sees it.

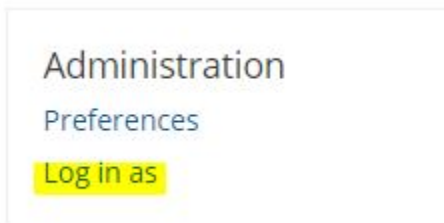

1. From the main course page, click the 3-line **hamburger** icon (**top left**) to open the drawer, and select **Participants** from the menu.

2. Find the student and click the text of that person's name in the list.

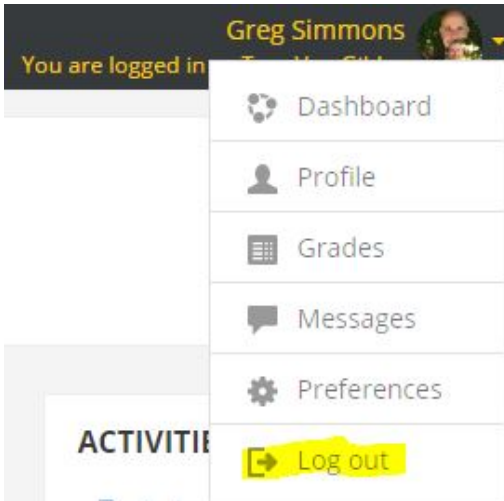

3. Click the **Log in as** link in the **Administration** block in the center column of the page.

4. Click **Continue**. The course will be displayed as that student sees it and any changes you make will be applied as if the student made them.

5. To return to your own role and identity, click your profile image at the top right, and select **Log out** from the user menu
