Sites

Overview

Sites allow Google Workspace (formerly G Suite) users to develop lightweight and highly customizable websites with little to no web programming knowledge.

Access

On the web, access Sites by navigating to https://sites.google.com. Note: If you are logged into a personal Google account in the same browser, you may be redirected to the inbox for that account. Please see this Help Document to add a second account to your browser session.

On a mobile device, you can access Sites from a mobile web browser.

Help

For tailored assistance regarding Google Sites, contact the Help Desk at 828-262-6266 (Option 1). For general assistance, view Google's Sites Support Page.
