

# How to Configure ASU Wireless on Android devices

 Screen images may vary, but the settings will work for any device.

## Step-by-step guide

1. On your phone, go to "**Settings**". Click on "**Connections**" and then "**WI-FI**".
2. Click on the "**asu**" network.

3. Enter your App State username and password, then click "**Connect**".

asu  
Phase 2 authentication  
None  
CA certificate  
(unspecified)  
Identity  
username  
Anonymous identity  
Password  
.....  
☐ Show password  
☐ Advanced options  
CANCEL CONNECT

4. Your device will now be connected to the "asu" network.

5. If this is your first time connecting this device to the asu network, you will need to register your device with App State. Open your browser (Firefox, Chrome, Safari or your phone's default web browser) and go to [netreg2.appstate.edu](https://netreg2.appstate.edu).

6. Log in using your App State username and password.

7. Follow the steps to register your device.
