

# Course Faculty Evaluations

## Website

[irap.appstate.edu/node/269](http://irap.appstate.edu/node/269)

## Summary

At the end of each semester, faculty members have the opportunity to have their performance evaluated by the students. ITS Data Control provides scanning of the evaluations with results emailed to departments as a word document. Each department is responsible for purchasing/printing its faculty scantrons. Our office provides a list of questions that departments are required to use.

## Who can use this service?
