CyberDuck

Website

cyberduck.io

Summary

Cyberduck is an open-source file transfer protocol (FTP) and cloud storage client for Windows and MacOS operating systems. It allows users to connect to and transfer files between their local computers and various remote servers or cloud storage services.

Cyberduck supports a wide range of protocols including WebDAV, Amazon S3, Microsoft Azure, and Google Cloud Storage which enables users to connect to different types of servers and storage platforms.

Who can use this software?

Access is defined by role.

Who do I contact for problems or issues?

Call the Help Desk at 828-262-6266, Monday through Friday, 8 a.m. to 5 p.m., or enter a support request at support.appstate.edu.
