CNS - Collaborative Network Services

Website

its.appstate.edu/academic-technologies

Summary

Collaborative Network Services (CNS) provides real-time, standard, and high-definition quality interactive video experiences for faculty, staff, and students. The primary classroom seats up to 22 participants while the primary conference room seats 7. CNS can network up to 39 unique sites from nearly anywhere in the world.

CNS services include but are not limited to:

- Real-time streaming and archiving services for later usage
- Use of professional-grade cameras, lighting, audio, and high-quality mp4 archives
- Classroom instructional videos and promotional videos for academic and other departments

Who can use this service?

Faculty

Who do I contact for problems or issues?

Please contact Darrell Laws at 828-262-7122.
