

# OpenRefine

## Website

[openrefine.org](https://openrefine.org)

## Summary

OpenRefine is an open-source desktop application for data cleanup and transformation to other formats, an activity commonly known as data wrangling. It is similar to spreadsheet applications and can handle spreadsheet file formats such as CSV, but it behaves more like a database.

## Who can use this service?

Those using the lab computers in BMC Beasley 224
