# SPSS

## Website

## Summary

SPSS Statistics is a statistical software suite developed by IBM for

- data management
- advanced analytics
- multivariate analysis
- business intelligence
- criminal investigation

## Who can use this service?

Faculty, Staff, & Students

## How do I request this service?

**Faculty and Staff** can download SPSS directly from Software Center on a PC, or Self Service on a Mac while on campus or while connected via VPN. While connected to the Appstate network, the license will auto-apply and renew as needed. **Do not** use the stand-alone download/license on a fac /staff machine.

**Note:** There are a limited number of licenses that are reserved for student use.

1. Students can **download SPSS 29 here** (ensure that you are logged in with a valid **@appstate.edu** account).
2. Request stand-alone license code (which expires annually) - **request a code**
3. You can also access SPSS for free by going to the **uDesk virtual computer lab**.

**Note**: SPSS will not work on a Chromebook or other device with Chrome OS.
