# AsULearn-Syllabus Chatbot

Syllabus content in AsULearn can be access from the **AsULearn-Syllabus** Google chatbot.

Step-by-step guide

1. In Google Chat in the Mountaineer Apps domain, select **New chat** and search for **AsULearn-Syllabus** to start a conversation with the chatbot. (You may need to authorize chatbot access for your account.)

2. Say hello, and the chatbot will respond with a list of **available syllabus content** from which to choose. Respond with the desired content.
3. The conversation with the chatbot will then drill down into **available courses with syllabus resources for your user**, as well as **available syllabus resources for a specified course** (if more than one is available, i.e. for different sections in a metacourse). Respond with the desired course and then syllabus resource.
4. The requested syllabus content will then be provided by the chatbot and the conversation concluded.
