

# Mathematica

## Website

[user.wolfram.com](https://user.wolfram.com)

## Summary

Mathematica is a versatile computational software used in scientific, engineering, mathematical, and computing fields. It offers 2D and 3D data visualization, statistics libraries, and data mining tools including cluster analysis and pattern matching.

## How to Get Mathematica

Mathematica is currently installed on lab computers in the Math Department and on public computers in the library and student union. For university-owned faculty and staff computers, the software can be installed via Software Center on a Windows computer and Self Service on a Mac.

## Who can use this software?

Faculty and Staff on personal machines, and fac/staff/students on-campus machines.

For more information see the [Mathematica Knowledge Base article](#).

## Who do I contact for problems or issues?

Call the Help Desk at 828-262-6266, Monday through Friday, 8 a.m. to 5 p.m., or enter a support request at [support.appstate.edu](https://support.appstate.edu).
