

Zoom - Student Information

 App State uses Zoom as the enterprise solution for video conferencing. All students are eligible for an App State-sponsored Zoom account.

Zoom has two main components and students should become familiar with both:

1. The Zoom Web Interface
2. The Zoom App

(1.) The Zoom Web Interface:

The Zoom Web Interface can be accessed at <https://appstate.zoom.us/>

Click **Log In** and enter your App State username and password

The first authentication will provision your App State Zoom Account, and grants access to profile information and Zoom settings.

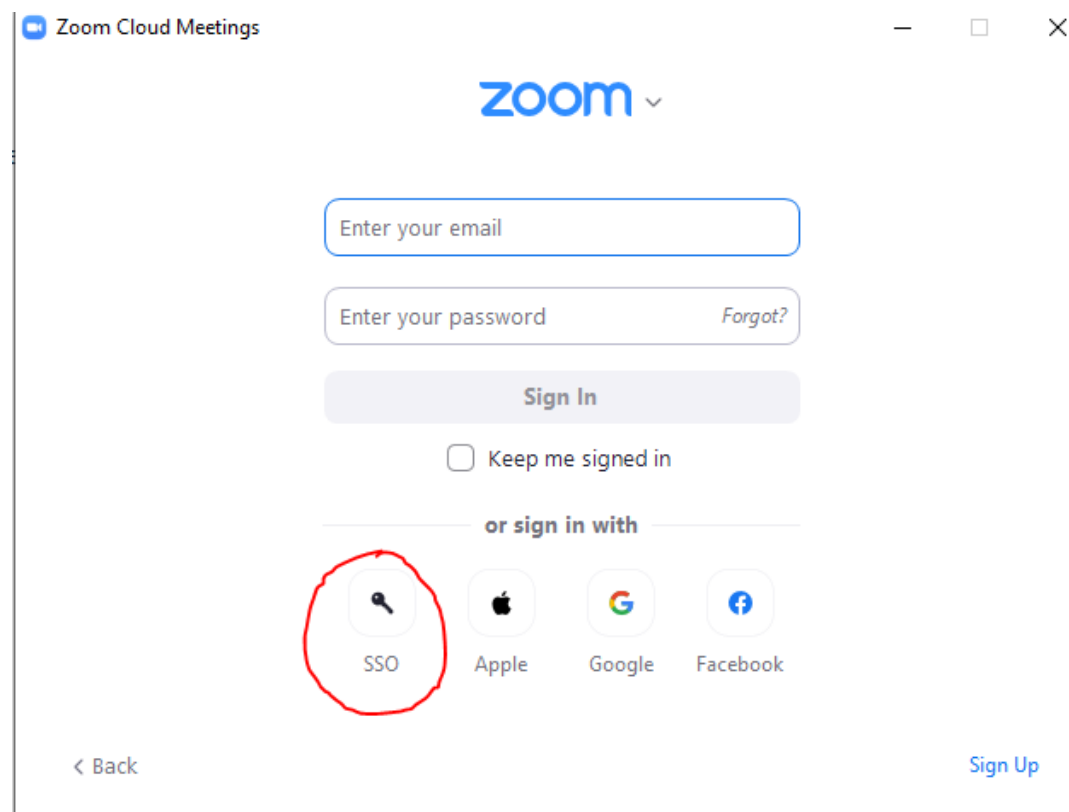

All students should login to the Zoom Web Interface at least once!

(2.) The Zoom App:

The Zoom App can be installed on many device types from the Zoom Download Center: <https://zoom.us/download>

Once installed:

1. Open the Zoom app and click Sign In
2. Click "SSO"

The screenshot shows the Zoom Cloud Meetings login interface. At the top, there's a header with the Zoom logo and a dropdown arrow. Below the logo, there are two input fields: "Enter your email" and "Enter your password". To the right of the password field is a link that says "Forgot?". Below these fields is a "Sign In" button. Underneath the "Sign In" button is a checkbox labeled "Keep me signed in". Below the checkbox is a horizontal line with the text "or sign in with" in the center. Under this line are four circular icons: a key icon labeled "SSO", an Apple logo labeled "Apple", the Google logo labeled "Google", and the Facebook logo labeled "Facebook". The "SSO" icon is circled in red. At the bottom left, there is a "< Back" link, and at the bottom right, there is a "Sign Up" link.

4. When prompted for a Company Domain, enter **appstate**

8am-5pm Monday-Friday.

Notes:

- Working through these steps and logging into the App State Zoom account with **SSO** will ensure that your meeting space is optimized for all types of meeting configurations you might encounter as a student.
- Installing the Zoom App and authenticating allows you to customize your background image, touch up appearance, adjust for low lighting, select mic and camera options, and more. Visit the setting icon in the top right corner of the Zoom App for full features and options.
- Please make every effort to keep your Zoom App updated to the newest release across all your devices. Zoom updates frequently, both feature updates and security updates. To check for updates, open the Zoom App and click on your profile picture in the top, right corner, and select **Check for Updates**
