

ecoinvent

Website

ecoinvent.org

Summary

The Ecoinvent Database is a Life Cycle Inventory (LCI) database that supports various types of sustainability assessments. The database contains international industrial life cycle inventory data on energy, resource extraction, material supply, chemicals, metals, agriculture, waste management services, and transport services. The Ecoinvent Database enables users to gain a deeper understanding of the environmental impacts of their products and services.

Who can use this service?

Faculty and Students in the Department of Management, COB can use the Educational License.

How do I purchase a license?

Educational licenses can be purchased using departmental funds from this page: <https://ecoinvent.org/offerings/licences/educational-licence/>

How do I obtain a license?

Licenses are purchased at the department level. Users must receive approval from their Department Chairperson before purchasing a license.
