

SubltUp Professional Package

Website

subltup.com

Summary

SubltUp is a cloud-based employee scheduling and workforce management solution. The platform has a time and availability tracking feature that monitors an employee's number of hours. It then makes the proper rearrangement of schedules to accommodate time availabilities so that shifts are easier to handle. SubltUp is currently used by various units on campus, including the University Bookstore.

Who can use this service?

Faculty & Staff for Student and Non-Student Temporary Employee Scheduling

How do I purchase a license?

subltup.com/pricing

There are three plans available for purchase: simplify, Unite, and Empower.

How do I obtain a license?

Users must receive approval from their unit's Department Chair or Director before purchasing this software. Various licenses can be purchased directly from the website.

How do I request this service?

This software is available for campus-wide use and can be purchased from the website.
