

cognition.run

Website

cognition.run

Summary

Cognition is a cloud-based platform that allows users to host online experiments posted in javascript. cognition.run also provides an opportunity to collect data with more complex tasks and to run these studies in an on-campus lab or via online data collection services like [Prolific](#).

Who can use this service?

Katie Wolsiefer and faculty performing research in the Department of Psychology.

How do I purchase a license?

The basic version of Congition.run is free.

Individual licenses can be purchased directly from their website.

Those who wish to purchase a Team license should submit an IT acquisition request support ticket at <https://support.appstate.edu>.

How do I obtain a license?

All other users should submit an IT acquisition request support ticket at <https://support.appstate.edu>. Faculty performing research should include a description of their research project, including whether or not it has received IRB approval, research subject demographics, timeline, etc.

How do I request this service?

Faculty who wish to purchase a Team license should submit an IT Acquisition request at <https://support.appstate.edu>.
