

# Data Analytics Simulation: Strategic Decision Making

## Website

[hbsp.harvard.edu/product/7050-HTM-ENG](https://hbsp.harvard.edu/product/7050-HTM-ENG)

## Summary

The Data Analytics Simulation: Strategic Decision Making is a simulation-based learning experience that uses hands-on experiences designed to develop participants' skills in applying data analytics and strategic decision-making based on the available simulation.

The simulation involves working with large datasets, applying statistical methods and predictive modeling techniques, and evaluating different scenarios to determine the best course of action.

## Who can use this service?

Faculty and Student in the College of Business

## How do I purchase a license?

Instructors can purchase codes to access the course directly from their website. Users who wish to use E&T funds to distribute codes to their students should obtain approval from Academic Affairs prior to purchasing this license.

## How do I obtain a license?

After creating an account, users will receive a code to access this course.
