# VCarve Pro

## Website

vectric.com/purchase/vcarve-pro

## Summary

VCarve Pro is software for creating and cutting parts on a CNC Router that allows users to produce complex 2D patterns with profile, pocket, drill, and inlay toolpaths, and create designs with v-carving textures as well as import and machine unlimited Vectric 3D clipart or single model files. The 'Pro' edition provides unlimited job and toolpath size, true shape nesting & job set-up sheets, ideally suited to a production environment.

## Who can use this service?

Faculty & students in the Department of Sustainable Technology & the Built Environment

## How do I purchase a license?

The educational classroom license can be installed on up to 40 computers in a single classroom but cannot be installed on students' individual or personal laptops.

Individual licenses can be purchased directly from their website.

## How do I obtain a license?

Faculty in the Department of STBE should contact their Desktop Support Specialist regarding license availability.

## How do I request this service?

Submit a support ticket at support.appstate.edu..
