

Kaltura

Kaltura is a cloud video platform that provides the campus with tools for recording, editing, and sharing videos. It is very closely integrated with AsULearn and can be used for sharing any course-related videos, as well as student-produced content.. It also functions as a campus-wide media solution that can be accessed at <https://mediaspace.appstate.edu/>. From Mediaspace, you can share videos in a public or unlisted manner.
