

NaturalReader

Website

naturalreaders.com/software.html

Summary

NaturalReader is a text-to-speech software that can read text from applications including, Microsoft Word, files, webpages, PDF files, and email. These can be converted to audio files in MP3 and WAV formats and also works with Optical Character Recognition (OCR) software.

Main Features:

- supports Text-to-speech
- converts printed characters into digital text
- converts screenshots
- has a pronunciation editor
- utilizes Miniboard which simplifies reading text directly on the page

Who can use this software?

Faculty, Staff & Students

How do I purchase a license?

Natural Reader offers a free version with unlimited use with Free Voices, Miniboard to read the text in other applications, pronunciation editor, and works with PDF, Docx, TXT, and ePub.

Individual, Professional, and Ultimate licenses are also available for purchase.

These licenses are purchased at the Department Level.

How do I obtain a license?

Licenses can be downloaded directly from their website.
