# Brickfield Accessibility+ Toolkit Fix Link Text

> ⓘ The new accessibility toolkit will change links in the course to descriptive text. This change is helpful to make links accessible for all users, however if you want to link to display as you wrote it (i.e. for email links), you can turn off the Brickfield Convert URLs into links filter for the activity or resource individually. Note that if your email links are preceded by "mailto:" they will not be changed by the filter.

Step-by-step guide

1. Browse to the **Settings** for the specific activity or resource.

2. Access the **Filters**.

3. Set **Brickfield Convert URLs into links** filter to **Off**.

4. **Save changes**.
