

Workshop Scheduler

The Center for Excellence in Teaching and Learning for Student Success development team created the Workshop Scheduler online application to administer scheduling, promoting, and registering Appalachian users for group workshops: <http://workshops.appstate.edu>

The Administrator Manual ([PDF](#)), which includes steps to create a community for facilitating workshops, instructions for using the application, and information about how to receive technical support for using the Workshop Scheduler, is being ported into the Appalachian Technology Knowledge Base and at the same time content is being updated for Version 2 which is in development.

Use the Administrator Manual for complete documentation for the current version. Version 2 was expected to release mid-Fall 2019.
