Classroom

Overview

Classroom is a lightweight learning management system (similar to AsULearn) that provides native integration with other **Google Workspace** (formerly G Suite) products. After creating a class, users can add other **Gmail** account users, even if they're not affiliated with App State. Each class has a **Calendar** for scheduling and a **Drive** folder, which can be used to store, share, and collaborate on files, and allows for total control of assignment submission.

Access

On the web, access **Classroom** by navigating to https://classroom.google.com.
Note: If you are logged into a personal **Google** account in the same browser, you may be redirected to the inbox for that account. See this Help Document to add a second account to your browser session.
On a mobile device, access **Classroom** via Google's official **Classroom** app, which is available for free in the **App Store** (iOS devices) or **Play Store** (Android devices).

Help

For tailored assistance regarding Google **Classroom**, contact the Help Desk at 828-262-6266.
For general assistance, please view Google's **Classroom** Support Page.
